Aadhar gaur

Senior PHP Developer | Backend Specialist | Laravel & Yii Expert |
Scalable Web Solutions
Jaipur, Rajasthan, India

Summary

Experienced and dedicated senior software engineer specializing in backend development with 10+ years of experience. With a proven track record of delivering high-quality, scalable, and efficient solutions, I strive to contribute my expertise to drive innovation and success in the software development field.

* Skills

I am proficient in PHP, MySQL, Laravel, Yii & Yii 2, HTML, Bootstrap, CSS, JavaScript, Ajax, jQuery, and CodeIgniter and am well-versed in the ideas and best practices of backend programming. I am exceptional at developing RESTful APIs, streamlining database operations, and ensuring the security and performance of web applications.

* Work

I have participated in every stage of the software development lifecycle during the course of my career, from requirements gathering and system design to deployment and maintenance. With the use of agile approaches and timely delivery of high-quality software solutions, I have successfully managed numerous projects.

* Collaborator and Problem Solver

With my excellent analytical thinking and problem-solving abilities, I excel at taking on challenging technical tasks. I have a keen eye for identifying areas of improvement and implementing effective solutions that enhance system efficiency and overall user experience. In addition, I have strong communication skills, am a collaborative team player, and am skilled at working with cross-functional teams, which enable me to explain technical concepts to non-technical stakeholders.

* Continuous Improvement and Growth

I have a strong desire to stay current on the newest developments and trends in the software engineering field. By attending conferences, taking online courses, and interacting with the developer community, I actively investigate how to broaden my knowledge and skill set.

Experience

RG InfoTech (Recursive Global InfoTech Pvt. Ltd.)

Sr PHP Developer

January 2024 - March 2025 (1 year 3 months)

Jaipur, Rajasthan, India

- * Design, develop, and maintain scalable web applications utilizing PHP and the Laravel framework.
- * Lead development efforts on multiple (6-7) diverse Laravel projects, ensuring alignment with client requirements and technical specifications.
- * Collaborate with project managers and clients to define project scope and deliverables.
- * Implement coding best practices, conduct code reviews, and mentor junior developers.
- * Develop and maintain RESTful APIs for integrating third-party services and payment gateways.
- * Proactively identified opportunities for process improvements, driving increased team productivity and collaboration.

SimplifyVMS

Senior Software Engineer

June 2022 - December 2023 (1 year 7 months)

Noida, Uttar Pradesh, India

- * Served as a key backend developer for a large-scale Vendor Management System (VMS).
- * Engineered and optimized backend services focusing on high performance, scalability, and system security.
- * Collaborated effectively with cross-functional teams (front-end developers, QA) to integrate backend logic with user-facing applications.
- * Provided technical guidance and support to development team members.
- * Conducted comprehensive testing, debugging, and troubleshooting to ensure system stability.

- * Managed multiple projects simultaneously while maintaining strict deadlines and high-quality standards.
- * Developed scalable applications using agile methodologies for timely project delivery.

Matellio Inc.

SOFTWARE ENGINEER III

November 2021 - June 2022 (8 months)

Jaipur, Rajasthan, India

- * Functioned as a backend developer, contributing to the development and maintenance of a client-based project using PHP and related technologies.
- * Developed and integrated APIs for seamless data exchange.
- * Participated in code reviews and adhered to agile development methodologies.
- * Consistently met project deadlines by effectively managing time and prioritizing tasks according to importance.
- * Analyzed proposed technical solutions based on customer requirements.

Appinop Technologies

SR. WEB DEVELOPER

April 2021 - November 2021 (8 months)

Jaipur, Rajasthan, India

- * Developed custom modules and features for various web applications using PHP frameworks.
- * Contributed to database design and optimization for improved application performance.
- * Developed custom plugins and extensions for popular content management systems, enhancing website capabilities for clients across various industries.
- * Increased site security by addressing vulnerabilities and implementing best practices in coding standards.

The NineHertz

PHP DEVELOPER

May 2019 - November 2020 (1 year 7 months)

Jaipur, Rajasthan, India

- * Developed web applications primarily using the Yii 1 framework.
- * Gained practical experience with CakePHP (versions 2 & 3), MongoDB, WordPress, and Lumen (Laravel microframework).
- * Contributed to both front-end and back-end development tasks across various projects.

- * Enhanced user experience by implementing responsive web design and optimizing website performance.
- * Coded websites using HTML, CSS, JavaScript, and jQuery languages.

Yellow Objects Solutions Pvt. Ltd.

PHP DEVELOPER

February 2018 - March 2019 (1 year 2 months)

Jaipur, Rajasthan, India

- * Developed and maintained PHP-based web applications according to project requirements.
- * Worked with MySQL databases for data storage and retrieval.
- * Enhanced website functionality by implementing PHP-based solutions and optimizing server-side code.
- * Wrote server-side and client-side code for various projects using PHP, HTML, CSS, and JavaScript.

Blueberry Softech Private Limited

ASSOCIATE WEB DEVELOPER

September 2015 - September 2017 (2 years 1 month)

Ajmer, Rajasthan, India

- * Developed web-based applications using PHP, MySQL, Ajax, and the CodeIgniter framework.
- * Created user interfaces using HTML, CSS, and Bootstrap.
- * Assisted senior developers in various development tasks and bug fixing. Mentored junior web developers, sharing knowledge and expertise to foster a collaborative learning environment within the team.
- * Collaborated with cross-functional teams to develop visually appealing and user-friendly websites, resulting in increased customer satisfaction.
